EDUCATION

- **BS in Software Engineering**, City University of Science & Information Technology, Peshawar, CGPA: 3.38/4.0 **Oct 2021 - July 2025**

Thesis: "Intelligent React Components" - focused on integrating AI into frontend development

- **Higher Secondary School Certificate (Pre-Engineering)**, Peshawar Model Degree College, Grade: B **2021**
- **Secondary School Certificate (Science)**, Ittefaq Model School, Grade: A1 **2019**

PROFESSIONAL EXPERIENCE

Full Stack Developer (React / React Native / Node.js) **Apr 2026 — Present**
[Paper to Pixel](#) Lahore, Pakistan (On-site)

- Develop and maintain frontend and mobile applications using React and React Native, ensuring responsive and high-performance user experiences
- Build and integrate scalable backend services and APIs using Node.js, supporting seamless data flow and system reliability

Associate Software Engineer - MERN Stack **Aug 2025 — Mar 2026**
[CBSOL](#) Lahore, Pakistan (On-site)

- Design and maintain full-stack applications using MERN stack (MongoDB, Express.js, React.js, Node.js)
- Collaborate with cross-functional teams to deliver scalable web solutions aligned with business requirements

Freelance Full-Stack Developer **Oct 2021 — Oct 2024**
[Upwork](#) Remote

- Built full-stack applications with React.js, Next.js, and Node.js for international clients

KEY PROJECTS

Intelligent React Components (Final Year Project)

[View on NPM](#)

- Developed a React component library using LLMs to generate enhanced HTML elements
- Published as NPM package demonstrating practical AI application in frontend development

Tone Talk - AI Chatbot Application

[Live Demo](#)

- Built AI chatbot with three distinct personality bots using React.js and OpenAI
- Deployed live application demonstrating practical AI conversation capabilities

E-Commerce Platform

[Live Demo](#)

- Full-stack e-commerce application with admin panel, authentication, and role-based access control
- Implemented payment integration, responsive design, and robust backend logic

CERTIFICATIONS

The AI Engineer Path, Scrimba

[View Credential](#)

Practical track focused on JavaScript-powered AI applications using GPT-4, Agents, and RAG systems

Learn React, Scrimba

[View Credential](#)

Comprehensive training in modern component-based development with React.js fundamentals
